- Announcements

The hydroponic growing unit constructed by the GrEAU team.

Hydroponics is a different way of growing without soil. Products will be fresh and organic, pesticide free and herbicide free. The community would be provided with cheaper, healthier, organic and fresh herbs and vegetables. This process of growing is quick and could be run all year round, even during our harsh winters.

Basil plants at an intermediate stage of growth.

In November a small group of students, with the support of their science teacher, came together with the purpose to start their own business.

After assessing their budget, limited resources and space, they eventually decided they would grow lettuce and herbs locally using a method called hydroponics.

Once the type of business was decided, the students made a business plan, sought local support and

Nibbles & Bits

Congratulations to the students of St. Lawrence School for the success of their Nibblers Project (canteen). They were the local winners of the Quebec Entrepreneurship Contest in the Local,

"Its not about ideas.

Its about making ideas happen."

-Scott Belsky ; Behance cofounder

Cycle One category for 2012-13, as well as for the 2013-14 school year. This year, a school supply section has been added to their project, therefore, the name has been changed to *Nibbles & Bits*.

Miss Tina (St Lawrence teacher)

Students Rebuild Water Challenge

Do you know that there are millions of people in our world without clean water? In our country we take water for granted. In many parts of the world women and children spend as much as three hours a day getting water. Their journey involves not only a long walk, but often a dangerous one. They may return with water, but sometimes it is not fit for human consumption. It leads to disease and even death. Hard to imagine when you live in a place such as ours where we are practically surrounded by water.

Just getting started....

Ms. Melinda shows Ashton how its done.

Upon receiving an email from the CLC network directing us to a webcast broadcast live from Tanzania, Africa specifically addressing this issue we joined the cause. From this we learned there was a "Water Challenge" out there. We learned that by making paper beads we could provide

water to some of those who don't have it. Just twenty beads will provide water for one person!

Maureen Collier took the lead on this very worthwhile cause. She learned to make beads, made templates, cut paper, prepared glue and toothpicks and essentially prepared

Maureen works with a group of students.

Community members join in.

us with all the materials needed to make beads, then led us on a bead making journey.

The whole school and indeed representatives from various community organizations were introduced to the

Learning what to do from our big cousin, Coco.

A Good Start with Avenir D'Enfants

Avenir d'enfants (AE) is a non-profit organization created through efforts of the Quebec Government and the Lucie et André Chagnon Foundation devoted to helping communities throughout the province. Its mission is to provide expertise and financial support towards action plans and projects elaborated by communities committed to the overall development of children aged five and younger to ensure that every child has an equal opportunity for a good start in life.

The pilot project is supported by the Lower North Shore Coalition for Health and the Lower North Shore Exchange Network and will be piloted through the Commission Scolaire du Littoral Community Learning Centres in Chevery, Harrington Harbour, Gros Mecatina and Bonne Esperance. It focuses on supporting early childhood development, emergent literacy and school readiness. Parent information and education sessions will also be offered to families.

CSL-CLC Development Agents; Ana Osborne, Helen Morency, Molly Organ & Kimberly Buffitt

AE in the pilot community of Gros Mecatina: Avenir d'Enfants is a program that has been implemented in La Tabatiere

Parents and children work together on a Family Literacy Day craft activity hosted by the YSL & Avenir D'Enfants animators at Mecatina's library.

since the beginning of October. The AE program essentially became an extension of the P.A.C.E. program which was already established in the community. Both programs target children from 0-5 and their families and together they provide a more comprehensive program especially to further develop the area of Literacy.

Since P.A.C.E. was already established with a locale and the 0—5 clientele, we were able to extend our workshops to the participants by devoting an extra 45 minutes to each workshop three times a week.. Activities consisted of phonemic awareness activities, letter and number awareness games, concentration games, themed bingo games and of course a lengthier story time.

Halloween was celebrated with a breakfast event and the children and parents alike came dressed in their costumes. Everyone enjoyed a nutritious breakfast, games and activities. Children got to take home two books from our library and information was provided to parents about the Avenir d'Enfants program.

Family Literacy Day activities were planned in conjunction with the Mecatina School library animator. The children and their parents participated in a variety of Olympic themed activities and games. Literacy awareness packages containing info on creative ways to make time to read with children were distributed to all families present.

During the past few winter months home visits were offered to parents by the AE animator who took her resources to the home to interact with the children and their families. The AE animator also takes part in a variety of literacy activities in the Pre K & K classroom a few times each week.

Through the combined efforts of the Avenir d'Enfants and PACE programs in our community we can ensure that our little youth are ready for their early school experiences, educationally and socially.

Adeline Anderson ; PACE & AE animator

Take the Challenge

Look out below!!!

The 5-30 *Health and Wellness Challenge* is an annual health event that is not to be missed! With more than one million registrations since 2005, 459 participating **municipalities** in 2014, and several hundred **organizations** that promote it, the *Health Challenge* has become the largest public health campaign in Quebec!

The Health Challenge is 6 weeks of motivation to improve

one's lifestyle habits. Basically, it means setting 3 goals on your own, as a family, or as part of a team, **for 6 weeks**, from March 1 to April 11.

5 Goal: Eating at least 5 servings of fruit and vegetables a day

30 Goal: Getting active at least 30 minutes a day. And for young people, it's at least 60 minutes!

Wellness Goal: Sleeping better for increased wellness in life

- The *Health Challenge* also means:
- Learning to plan ahead for healthy eating
 - Finding a way to be more active
 - Taking time for yourself

Guys like to hang out in snow tunnels too!

Is everybody ready for the ride of your life?

Snow tunnels are a great place for girl chats.

Some days Kiana likes to slide with her buddy Kathy,.....

Take the Challenge

In order to encourage our students and families to take part in the 5-30 Health Challenge, Mecatina CLC and BCN en Forme partnered to offer weekly activities over a period of 6 weeks.

Week 1: Build Snow Tunnels

Week 2: Carnival Games

Week 3: Sliding

Week 4: Skating at the Arena

Week 5: Short Hike & Sliding

Week 6: Soccer Baseball in the Snow

Participation rates were very good for all activities, but sliding seemed to be the most fun for students and parents alike.

..and some days she just wants to soak up the sun!

It *really is* worth the climb!

At the end of the six weeks all students were presented with a Mecatina School smoothie glass, and the 6 students that attended all activities each received a surprise gift certificate to the school canteen.

The activity animators, Kathy Green (CLC animator) & Shannon Rogers (BCNEF Animator), both did a great job getting everyone actively involved.

Thanks ladies!

Montreal Alouettes encourage LNS students to stay in school

It is not uncommon for the Montreal Alouettes to travel coast to coast representing their team, but it's not every day that they can travel to the Gaspé, Valleyfield, Bury, Baie Comeau, La-Tuque, New Carlisle and the Lower North Shore (Mecatina, Harrington and Netagamious School) in just a few hours; nevertheless, that is precisely what happened on March 12th and 14th.

John Bowman #7 and Kyries Hebert #34 of the Montreal Alouettes each made a video-conference "virtual visit" to Community Learning Centre schools across Quebec mid-March. They presented to more than 75 eager and question filled primary and sec

ondary students about the challenges and successes they had encountered in life on their way to becoming professional football athletes. The overall message reinforced during both presentations was summarized by John Bowman, "We have been through rough times and difficult situations and if we can make it out of those times, then through hard work, dedication and commitment so can they".

Ms. Mikaella Goldsmith was the Community Learning Centre Coordinator responsible for the virtual visit between the Montreal Alouettes and students from across Quebec feels the past presentations by the Alouettes

empowered, inspired and motivated the students at James Lyng High School.

"Our students were engaged and could relate to different aspects of the players testimonies. Seeing how well our students responded, I wanted other students to have the same opportunity to be inspired and motivated. Knowing that some students do not have as much access to professional football players or other guests because of their location it made it that much more important to do. I just think it's important to share good things with other people".

Ms. Goldsmith added, "I have had the opportunity to hear John Bowman and Kyries Hebert share their personal stories twice now. I cannot tell you how important it is that our students hear them. Both men have faced a series of trials and tribulations throughout their lives but found something that they were able to put their energy into, that something was football. Their passion allowed them to stay focused on the long term goals and helped keep them moving forward in the right direction.

Continued on next page

Montreal Alouettes encourage LNS students to stay in school

Many of our students face similar challenges as these players. Having Mr. Bowman and Mr. Hebert share their stories plants seeds of change in our students and shows them that anything is possible regardless of where or what you come from”.

Alouettes photo gallery

Presenting to students each year is important to Kyries Hebert, “I understand the responsibility as a pro athlete to not only reap the rewards of the profession but to also give back to those who are in similar positions as I once was, in hopes that it helps them in their future endeavors”. He hopes they will walk away with a clear message about the importance of setting higher standards, goal setting and understanding

that discipline and that perseverance plays a huge roles in their success in whatever career path they may choose. Hebert was focused and driven from a young age and always knew what he wanted to do. He designed a pair of shoes when he was 7 so that when he became famous Nike would make them for him. Hebert admitted it was not always easy to be as dedicated as a student and was often given a hard time by his peers. Hebert’s mother pushed him, stating “She is the hardest working person that I know” and acknowledges they are both in a good place now because of her hard work.

John Bowman shared his story of going from tremendous challenges to being a champion. He talked with pride about the support that his aunt gave him to stay in school and get an education. He encouraged the youth to not give up. “Presenting to the schools is important to me because when I was a kid I always wanted somebody famous to let me know how they made it out... to see what path I had to take”. He added that presenting to youth is important as a professional ath-

Alouettes stock photo

lete to “relate with the youth, to let them know we have been through rough times and difficult situations and if we can make it out of those times, then through hard work, dedication and commitment so can they”.

These powerful and positive messages were not lost on the young students that were attentively listening and asking many questions. After all, it’s not every day that a Montreal Alouette gives you a pep talk encouraging you to stay in school!

Its How You Play the Game

In January, students from Mecatina School participated in the Volleyball and Badminton tournament held in Blanc Sablon. The students had a great tournament with the following results for volleyball; Mecatina Cougars (Boys) - bronze medal, Mecatina Cougars (Girls) - silver medal. In Badminton, students also achieved some great results. They are as follows: Delaney Collier - Gold, Noah Bobbitt-Green - Silver, Victor Robertson - Gold, Connor Organ - Gold, Brandon Leon - Gold.

Delaney did not go to the regionals. However, Victor and Noah went to represent the CSL and they did quite well. They both enjoyed their weekend and found that it was a great experience to see what is out there in regards to competition.

Two of our players, Hannah Bateman-Organ and Brandon Leon, were also selected for the Volleyball Regional team for Juvenile. Josh Boland and Ocean Gallichon were also chosen for the Cadet group, however, it was decided that that group would not participate this year. Both Brandon and Hannah had

a great weekend in Sept-Iles. The teams did quite well. The boys team won bronze and the girls came in fourth place. Quite an achievement for a group of students getting together for only 2 days of practice before competing at Regionals.

So, sports have been great so far this year. Once again all students who participated have made Mecatina School proud for their accomplishments.

Also, from this weekend, four of our badminton players were chosen to represent the CSL at the Regionals in Sept-Iles. They were; Delaney Collier, Noah Bobbitt-Green, Victor Robertson and Brandon Leon. Unfortunately, the Juvenile group and Moustique group did not get to attend, therefore, Brandon and

"It's not whether you win or lose, it's how you play the game!"

Fay Collier

Another Great Season!

Once again we have come to the end of another busy and successful season at the Gros Mecatina Community Centre. During the 2013-2014 season, quite a few activities took place.

December was a busy month that started with getting the ice in the rink to begin the skating season. A Flea Market Day took place which turned out to be a huge success. Displayed was a sampling of the amazing talent that we have in this community. Then there was our annual Christmas Talent show which again showcased the great talent we have. We also hosted a 4 on 4 showcasing some great hockey among our local

Two of the Fun League teams: La Tabatiere Potheads in the orange jerseys and the St. Augustine Lavallee Loaders in the green jerseys.

hockey players.

In January, the Predators, Boomerangs and Bullets as well as the Fun League Teams began their regular season. We also held a 4 on 4 Tournament with

mixed teams from players along the coast taking part. As well as 4 on 4, there was a women's game, Fun League game and a youth game. It was a great way to start off the hockey season.

Goofy visits with some of the Predator hockey players.

The La Tabatiere Predators and a mixed team of kids from nearby communities along the Coast.

Another Great Season!

Our annual hockey tournament was held on February 21, 22, and 23 and proved to be a wonderful week -end with competitive teams attending from Romaine , Chevery, St. Augustine, Pakuashipi, and of course, La Tabatiere. There were women's teams from Chevery and St. Augustine. The youth played a mixed game and the Secondary students played a game against the Fun League team. The winner of the "B" Banner was the Pakuashipi Geese. The winner of the "A" Banner was the St. Augustine Raiders. The winner of the women's banner was the St .Augustine Raidettes. It was wonderful to see all the great participation and sportsmanship. It was great to see the many fans that came to watch!

The Carnival and Fun League was on March 14 and 15 and it also turned out to be a great week end. The week end started with events for children followed by a youth hockey game, dance and fireworks. The Fun League Hockey began Friday evening with teams from St. Augustine, Harrington, and our home teams the Potheads, Les

Boys and Playboys. Our annual breakfast, which is always a big hit, started off the events on Saturday. Throughout Saturday there was Fun League hockey and adult activities. Another busy week-end but all worthwhile when you see such great participation and sportsmanship!

The La Tabatiere Boomerangs in blue and the St. Augustine Raidettes in gold are two of the women's teams that took part in the annual tournament.

We would like to express our thanks to all the teams and spectators who attended our events. A big thank you and congratulations to our hometown teams, the Bullets, the Boomerangs, Les Boys, the Playboys, the Potheads, the Secondary team and of course, our youth team, the Predators.

Maintaining the Community Centre and hosting these events throughout the hockey season and also throughout the year takes a lot of effort, time and involvement. To list all of the different work that is required to achieve these results is impossible. Therefore the CDLS would like to say a heartfelt

"Thank You" to the many volunteers who assist at these events and throughout the year. Volunteers are the reason for our continued success! The community participation and the tremendous amount of volunteers in Gros Mecatina are amazing! THANK YOU !!

Family Literacy Day

On January 28th, St. Lawrence School hosted its annual Family Literacy Day by engaging students and family in a variety of activities. The afternoon started with teams participating in a game of Playdough Pictionary, followed by The Wheel of Reading, which is a spin off of Wheel of Fortune.

Continued on next page..

St Lawrence School News

To finish the event, teams challenged themselves with a game of Who Am I? The activities were very successful, where great participation and many

laughs were shared. I would like to take this opportunity to thank all the participants for making the Family Literacy Day event such an enjoyable experience for all.

Tina Leon (teacher)

Job Skills for the Future

In early Fall 2013 the opportunity came up to apply to the Youth Skills Link Project. I jumped at the chance right away because it would give me the occasion to build more work experience and to be able to live in my home town for a few more months after living away for so long.

- The Youth Skills Link project, would take place from September 2013 to March 2014. This 3rd phase of the "Linking our Youth" program, continues to be geared towards Self-Knowledge and Employability, Skills Enhancement, and Job Internship. Six youth ages 16-30 would be hired along the Coast where they would work out of their community participating via VCN for training and taking part in a job internship program with participating businesses or organizations. -

After receiving a call that I was accepted to take part in the Youth Skills Link Project, I was beyond excited to get started. During the first week of the project all six youth from different villages on the Lower North Shore met through WEBX and teleconference where we participated in a variety of workshops/exercises and training sessions to im-

prove our life and employability skills that would help us for our internships.

During the internship part of the project I was lucky enough to take part in three work placements. The first work placement was at Realm, where I was taught how to work the cash, lotto machine, and how the store inventory works. The second work placement was at GIDC where I was taught how to use a fax machine, transfer calls, print from a blueprint printer, and how to fill out Records of Employment. The last weeks of the project I did a work placement at Mecatina School Library where I organized different events like Family Literacy Day, Born to Read, and movie & game night fundraisers. I

also helped with the Elementary homework centre, which was my favorite part of working in the library because I got to help the kids who needed help with their school work.

All three work placements were a great learning experience. All of my supervisors and co-workers were so kind and always ready to give me a helping hand. So thank-you all! Thanks also to all the organizations here in La Tabatiere that participated in the YSLP, I have gained lots of experience as a result.

Throughout the Youth Skills Link Project it gave me time to think of possible careers, and after working at Mecatina School I came to realize that I would love to work with children. I enjoy their company and especially helping them with any of their needs.

My future plan is to attend the Early Childhood program at Heritage College in Gatineau in the Fall of 2014, and if for some reason that doesn't work out I would like to take a French course so that it will help me get a job in the province of Quebec.

Michelle Gallichon—YSLP Intern

Literacy Fun!

Isabella & her mom are hard at work.

Students and their families create Olympic flags during the FLD celebration.

Mecatina School held its 12th annual family literacy event on January 30th 2014. The theme this year was the Olympics, since the 2014 winter Olympics were starting in just a few days (Feb. 7th).

Two groups participated; Pace to grade 3 and grades 4 to 6. The first activity for both groups was an art activity where the parents and child worked together to make an Olympic

flag, cutting fabric and gluing the rings together. The second activity for the first group was charades, which everyone enjoyed and resulted in lots of laughter. The kids should have won an Oscar for acting out the Olympic sports. The second activity for the older group was Olympic trivia. The parents and children were very competitive but enjoyed themselves. The last activity for this group was

"Look what we made!"

Looking for other 15 minutes of fun ideas to do with your child, check these out:

- Tell knock-knock jokes when doing the dishes
- Invent a new ending to your favourite book
- Using ingredients that you have on hand, make up a new recipe
- Make a paper fortune teller
- Write a silly poem and tell it to the family
- Test your knowledge by doing crossword puzzles, word jumbles and word searches with your child

Literacy Fun!

It takes concentration to cut these Olympic rings just right.

Pictionary. The parents and children were split into two teams in where they had 3 minutes to draw an Olympic sport. Everyone had quite the drawing skills!

"Which Olympic sport am I drawing?"

I was extremely nervous about the outcome of FLD because I've never planned this sort of thing before, but overall the event went smoothly; parents commented that they enjoyed the event and wanted to be invited back again next year.

Thanks Adeline, Tanya and Molly for all your pointers and extra hands!

Michelle Gallichon
Youth Skills Link
Intern

A special thanks to Seaside Supplies for their donation towards literacy activities in the library.

One more ring to glue in place and my flag will be complete!

Jayden and her mom display the flag they made together.

"Hey, look at what I did!"

Working together is lots of fun!

Born To Read

Born to Read Babies of 2014.

On March 20th, 2014 the annual Born to Read event was held in the Mecatina School & Community Library.

Two adorable babies along with their mothers joined in on the fun.

With help from the 'ever so funny' Chloe Anderson, 5 books were read to the babies, one of which was called Noisy Peek-a-Boo. In the book you have to find a truck or tractor, and once you've found the proper vehicle, the truck or tractor would make a noise surprising the babies.

We presented a bag of books to the two babies, along with information for the parents on when is the best time to read to your child. Then it was snack time.

As they say, "a picture is worth a thousand words". The event was enjoyed by all!

Michelle Gallichon YSL Intern

Fun Fundraisers

A 'Romance' themed movie night was held on February 13th, 2014 for students from grades 6 to Secondary 5. The classic love story *Dirty Dancing*, and the hilarious *50 First Dates* movie starring Adam Sandler, were the films being highlighted. Refreshments and snacks were sold as well.

The participating teens really enjoyed the event, and they would like to see more movie nights in the future. Thank you to everyone who came out to support our library.

Game nights were held in the library on February 20th and March 20th, 2014 for elementary students.

During the evening students played a variety of fun board games with their friends. They especially enjoyed *Clue* and *Twister*. There was a whole lot

of laughter while they were all twisted up together.

Again, the students asked for more game nights because they such a great time.

Michelle Gallichon
YSL Intern

Many thanks to all the groups that supported the YSL Intern Program (Coasters, Ladies Project Group, Mecatina School, CLC, & Library)
